Early morning wake up

Hike in the cool darkness to the very top of the ancient mountain fortress of **Masada** which was built in the year 30 BCE by King Herod, whose architectural feats have left their mark throughout Israel. At the beginning of the great revolt against Rome in the year 68 CE, Masada was conquered by a group of Jewish zealots, and Masada became their last stronghold. In the year 72 the Romans besieged Masada and succeeded in reaching the steep fortress after constructing a huge earthen ramp on its western side. In the year 73, the 960 Jewish zealots living at the top of Masada chose to commit suicide rather than to fall into the hands of the Romans alive. Their deeds left behind a saga of courage, heroism, and martyrdom.

On the top of Masada we will watch the day begin with a spectacular sunrise over the **Moab Mountains** and the **Judean Desert**. Then, at the top of the mountain, discover the history of one of the greatest Jewish symbols of hope and pride. You will descend the mountain fortress by cable car.
